

# STAY HAPPY. STAY HEALTHY. STAY STRONG.

## Balance bike meetup expectations in the time of COVID-19

Norte is committed to the safety and well-being of our teammates, staff, and their families. We're able to deliver the Estrella balance bike program confidently because of staff and families following precautionary measures and monitoring protocols, and generally looking out to protect each other.

Some of the precautionary steps we're taking include:

**Physical Distancing** – We ask that everyone, riders and onlookers, continue to maintain a six-foot distance from others when joining us for a balance bike meetup. To help, we allow a max of 10 families per session. Remember to reserve your spot.

**Masks** – Face coverings are not required when riding (although totally allowed). However, they are required on arrival, during breaks, and during instruction time. Onlookers must wear masks the entire time. Norte has masks available for purchase.

**Monitoring** – We require all staff, volunteers, and families to complete an online health screen before the session begins every day. For these meetups, you can do so before arrival or onsite.

**Healthy Habits** – We ask riders to follow strict hygiene measures. No sharing. No spitting. Also, we ask that all participants wash their hands with soap and water before and after the ride. The Norte Clubhouse has an outdoor handwashing station for your convenience and safety.

**Family Responsibility** – It is impossible to remove all risk of COVID-19. We ask Norte families to help everyone stay safe and healthy. Please follow the daily requirements when bringing your child to practice.

- Complete an online health screen before each practice.
- Provide your child with at least one mask, more if possible. We also ask that cloth face coverings be worn by all visitors on arrival.

These expectations and other policies are to ensure public health, safety, and happiness for all. Norte's COVID-19 Task Force continues to evaluate the latest requirements and guidelines. We are committed to doing our part to stop the viral spread of the coronavirus.

Our COVID-19 Task Force will continue to stay abreast of the latest requirements and guidelines. If you have any questions related to our pandemic response, please contact Gary at [gary@elgruponorte.org](mailto:gary@elgruponorte.org).
