

# STAY HAPPY. STAY HEALTHY. STAY STRONG.

## Summer Bike Camp expectations in the time of COVID-19

Norte is committed to the safety and well-being of all our campers, staff, and their families. This year, we're doubling down on that effort to help stop the spread of COVID-19. Please join us by doing your part to keep everyone happy, healthy, and strong.

Below are some of the changes to expect at Summer Bike Camp

---

**Social Distancing** – Bike campers stick with the same small team of eight campers and two instructors throughout the week. We limit the interaction between groups as much as possible during the morning camp. Physical distancing is required when we are stationary, and when we ride, we ride in a line and keep to the right.

**Masks** – For the protection of everyone, including families at home, instructors & campers must wear cloth face coverings when they arrive at camp and assemble in teams. Campers are required to bring at least one mask and a spare if possible. They will wear them when groups gather and may remove them while engaged in biking.

**Hand Washing** – Norte is integrating frequent handwashing into our programming. To facilitate this, we provide outdoor handwashing stations at our Civic Center facilities. Out on the streets, we are also strategic about passing-by areas for bathroom breaks and handwashing—we want to keep those hands clean!

**Monitoring and Communication** – We require all staff and campers (looking at you, parents) to complete online health screens before camp begins every day. We will continue to communicate with camper families regularly with any future camp changes and updates. We invite families to reach out with questions or feedback. Bike Camp instructors meet daily to check-in and discuss ways to improve.

**Family Responsibility** – It is impossible to remove all risk of COVID-19. We ask camper families to help everyone stay safe and healthy. Please follow the daily requirements when bringing your child to Summer Bike Camp.

- Complete an online health screen before each day of camp. Each morning a text message with a link will be sent, or you may use the QR code below.
- Provide your child with at least one mask, more if possible. We ask that cloth face coverings be worn by all visitors on arrival. Please also send your camper with a ziplock bag for mask storage when riding.

These expectations and other policies are to ensure public health, safety, and happiness for all. Norte's COVID-19 Task Force continues to evaluate the latest requirements and guidelines. It will refine practices and integrate new information into our program as the summer progresses.
